

# Driver Education and Training Administrators

## 2007 DETA Conference

### and Annual Business Meeting

### Burlington, VT

Thursday, July 26 – Saturday, July 28, 2007

DETA's directors include state administrators from the United States and Canada. State and program administrators face many common issues, among them: GDL, teacher training, program standards and audits, curriculum; web based education, simulation, commercial program management and rising cost of driver education and training. Our workshops focus on our members and their activities. This is your opportunity to share information about your program and learn what others are doing.

*Providing traffic safety leadership through research, defining best practices, education and communication*

# *Roundtable Participants*

The Saturday Roundtable Workshop is open to directors only. The success of the Administrator's Round Table Workshops depends upon our sharing of program information. Please prepare the following for the Roundtable:

1. A brief 1-3 page written report about the important elements of your state's program. Please bring 30 copies of your report. If possible, please email a copy of your report to our Executive Director, Bill Woahn [email to [bill.woahn@drivesafety.com](mailto:bill.woahn@drivesafety.com)]. He will create a single document of all those reports received before the conference and email the reports to you for your review before the conference.
2. 5-Minute Drill: Select one specific topic from your written report to give as a verbal report to the participants. Using any visual support such as Powerpoint can enhance your verbal report. A lap top computer and projector will be available for your use for your presentation, if you choose.

Your report must be limited to 5 minutes maximum. This will help ensure everyone has the opportunity to talk about his or her program. If you use the computer for your presentation, please make sure set-up and presentation do not exceed 5 minutes. You can't cover all that your state is doing in 5 minutes. Please select the most unique or most important and only hit the highlights. Your written report can fill in the blanks for those with further interest.

We will also identify topics of interest by the group and have a more detailed discussion during the workshop on those issues.

# **See you in Burlington!**
